Spy The Night

It's sunset... The sun has hidden and night has arrived. Right at this moment, when everything seems so dark, a magical world begins. It is the night dance: wonderful lights turns on, the sky twinkles, the oceans sparkles, the jungle throbs, and the sleeping cities lullaby set us up to sleep with its magic. Look very carefully, open your eyes, spy on everything that lights up and you will discover that the night shines in a surprising way.

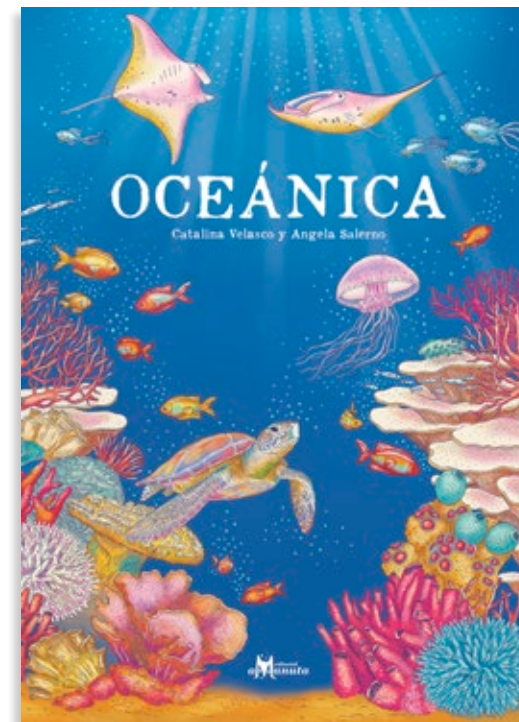

Eugenia Perrella

Illustrated by Ana Suárez

Age: 4 and up

25 x 25 cm | 44 pages | Hardcover | 2023

Oceanic

An invitation to dive into the vastness of the ocean. Written by Catalina Velasco—marine biologist, National Geographic explorer, and PhD in Antarctic and Subantarctic Sciences—this takes us through the wonders that live beneath the sea: corals, turtles, fish, algae, jellyfish, and the history of the ocean itself. Ángela Salerno brings every page to life with illustrations full of movement, detail, and color.

Together, the authors share their deep love for the sea through essential yet simple facts. Oceanica doesn't just inform—it inspires, amazes, and connects readers with underwater life.

29,5 x 21 cm | 60 pages | Hardcover

Fungi Kingdom

There are mushrooms that adorn our forests and fungi that inhabit your own home. But there's much more than meets the eye! Through engaging text and beautiful illustrations, discover this fascinating world that intertwines with both human life and that of all other creatures on the planet. Immerse yourself in this journey through the Kingdom Fungi and uncover the hidden life that surrounds us: from its crucial role in nature to its impact on cooking, medicine, agriculture, and more. Fungi have existed for many years and continue to surprise and provide utility to this day. Did you know that some fungi could revolutionize the way we handle waste and care for our planet?

28 x 21,5 cm | 56 pages | Hardcover | 2024

AlmaMuerta

Many cultures believe that life doesn't end with death. Something always remains—what some call a soul, and others, consciousness. It's such a powerful energy that, sometimes, it even manages to return to the world of the living—though of course, only according to the rules of the Afterlife that apply. Even when she was alive, Almamuerta studied ghosts. That's why—along with being, well, a dead soul—she's the perfect guide to take us through the many eternities that might await us, depending on the culture we come from. Many souls pass through these pages, and all of them reveal their secrets.

Ana Romero

Illustrated by Santiago Solís

ISBN: 978-956-364-399-2

Age: 8 and up

29 x 29 cm | 60 pages | Hardcover

Cuac!

This is the story of a very shortsighted boy who works in a cinema and is secretly in love with the girl who sales bread nearby his home. One day, he decides to invite her to have dinner at home, but suddenly he discovers that an entire community of ducks is hidden and lives inside his house!

Where did they come from?

How he hasn't seen them before?

Will she understand the situation, or will think he is crazy?

A story of love and humor to smile at adversity and absurd situations in life.

Cacapedia (Encyclopedia of Poop)

A fragrant historical journey in a book you can take everywhere, including the bathroom.

We are all curious and repulsed by our bowel movements, but our relationship with poop goes beyond the act of going to the bathroom. This is a story of poop like you have never read before, with interesting funny facts that bring us closer to our bodies and invite us to learn more about the cultural, and even political importance that poop has always had.

Word Family

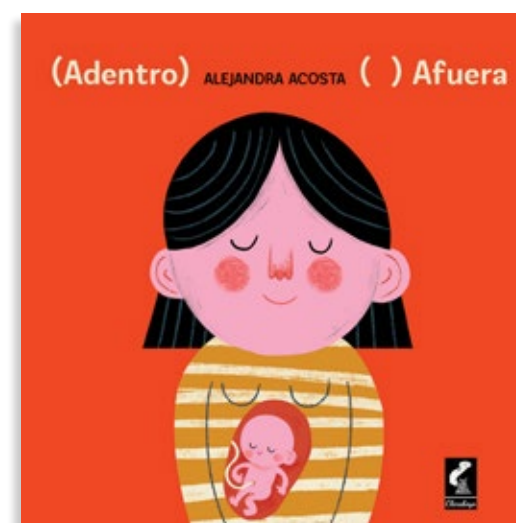

A girl seems to be looking for words in a game of meanings and memories, but we soon realize that these unexpected semantic relationships also tell us about the possibility of creation that words have, their ability to delimit our world defining who we are.

Can we create our own personal or family story from what we name? And what happen with the things we don't have or we cannot name?

The end of this book is all about the possibility of change and the power of words.

Wooden Frog

First volume of the new INDESTRUCTIBLE LEAGUE serie, born as a response to the ecoanxiety of many children concerned about the health of our planet.

A brilliant scientist with hilarious humor studies different living beings with extraordinary abilities that allow them to withstand extreme conditions. This is because she is convinced that we can learn a lot from nature. In this first book we'll meet the "Wooden Frog", an amphibian with the superpower to survive extremely cold temperatures, freeze in winter and then wake up to enthusiastically celebrate the following spring's festival.

Lost

Is Christmas and Gaspar gets an unexpected gift: a flight ticket to go with his dad to Chile, the country where Gaspar was born. In Chile everything looks different: the people on the streets, the stores, the transport... Suddenly Gaspar gets lost in the middle of the unfamiliar city: he's scared and lonely, but a musician will come to his rescue. As a commemoration of the 50 years of the coupe d'état in Chile, this book is a return to the scenarios of the dark times of the dictatorship, from the point of view of a boy.

The Little Crystal Makers

In 1925, in Chile, workers from the crystal factory organized a strike to demand better salaries, but they did not succeed. However, a group of children that also worked in the factory didn't give up and keep protesting in order to get better work conditions. The adults, workers, administrators and politics couldn't believe what was happening. A book based in a true story which remind us the inequalities in our society. And also show us the hard work of many children to get a dignified life.

Underground
The Subterranean World That Gives Us Life
“EARTH” is the name we give to our home, the planet where we live, and although we rarely consider it, beneath the earth we tread upon, we find the source of life that enables our existence: the soil, the living skin of the Earth. What is soil? Who inhabits it? What vital functions does it perform on the planet? What human activities threaten it? How can we take care of it? These are some of the reflections offered by this book.

We invite you to explore, appreciate, and experiment, with a magnifying glass in hand, this fascinating underground universe alongside its microscopic and macroscopic protagonists.

Messages

The monotony in a house begins to change with small messages that appear little by little and produce changes not only in the place, but in those who live there.

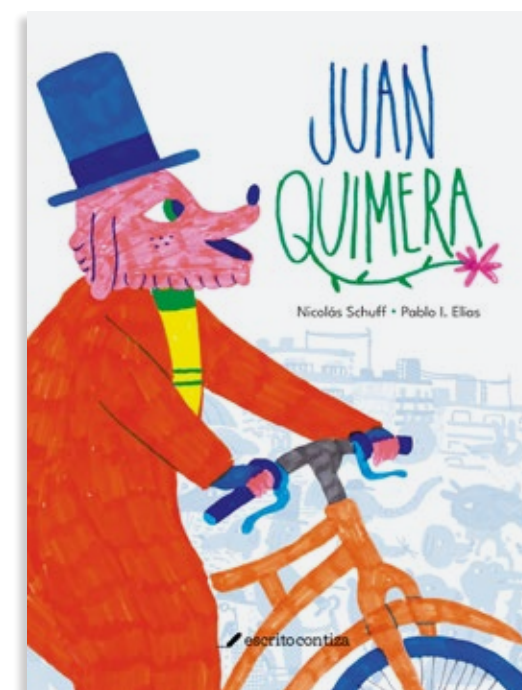

Through brief and beautiful texts and drawings, a child expresses the sadness that overwhelms them, associating their emotions with what they see (lack of color) and what they feel in their mind and body (confusion and cold). Their world in black and white slowly regains its shades as messages from “La Yoya,” their recently deceased grandmother, appear.

Juan Quimera

Juan Quimera is a unique dog. A traveler, very free-spirited, with a touch of poet and a touch of philosopher. The book introduces us to Juan and his friend, the Bird, in very simple situations: picking fruit from a tree, watering a flower, walking through the city, swimming in the river. However, each scene is accompanied by a sentence and a dialogue that prompts reflection through humor, wonder, and poetry. Juan Quimera is an inspiring book, for any age, about what truly matters when we stop focusing on the urgent.

A Tree. A Gift From The Roots To The Sky

This book is a tribute to the generosity of trees, a celebration of their connection with human beings, and a reminder that as long as there are trees, the sky will remain in place.

Because trees are much more than just part of the landscape: they are the pillars of the world, silent teachers who show us the way to resilience and renewal.

From the heights of their canopies to the secrets hidden in their roots, A Tree is an invitation to listen to their wisdom, marvel at the treasures they offer us every day, and understand that by taking care of them, we are taking care of ourselves.

Philosophy And Us
A Story Made of More Questions Than Answers
Philosophy is not just for adults. This book sets out on an adventure with Sebastián and his friends, in which together they will face different enigmas that they will solve in a collaborative and democratic way.

Boys and girls will discover how philosophy is more present than we think in everyday details, and that asking questions -many times- is more important than knowing all the answers.

**Thinking and US
Learn to Discuss, Deliberate, And Have A
Judgment of Your Own**

It is an initial and open guide so that each and every one of us can reflect, debate, deliberate, and decide for ourselves. It will strengthen your critical thinking, through which we discover that reality is not so simple, but that –by exercising it– we get closer to a better understanding of the richness of the world. It is the path that leads to genuinely respecting others and not fearing those who think differently.

**How To Create A Human Being?
A Girl, A Boy And An Extraterrestrial Will Answer
This Fascinating Question**

Is it the first sperm that wins the race or is it the egg that decides which one can enter? Is the mother's baby or uterus the place where a baby is made? Why do I have a penis or vagina? Who could harm us and how can we take care of ourselves?

In this book you will find more than one question that boys and girls usually ask us with the expectation of knowing more about their bodies and not receiving evasions from blushing faces in return.

In this story surrounded by humor, you will find a simple tool to discuss topics that are also simple, but that for the adult world have become strangely serious and complex.

Archaeological Atlas of Rapa Nui

Rapa Nui is a land of giants, not only because of its megalithic statues, but also because of the men and women who, a millennium ago, began the settlement of the island territory.

In the following pages, we invite you to take a journey through Rapa Nui from an archaeological perspective. Starting with its geography, the process of settlement and establishment of the first inhabitants, and then the ahu-moai phase. You will also find here some of the particularities of certain sites that make up the extensive island heritage.

Animal Kingdom

This anthology brings together a selection of 32 Gabriela Mistral's poems, dedicate to a different animal. It also includes 16 poetic prose pieces featuring animals such as the dog, the snail, and the mole. All compiled into a single volume, divided into sections for enjoyment and gifting to those we love.

This anthology celebrates the rich literary legacy of Gabriela Mistral, providing readers with a comprehensive selection of her works that showcase her mastery of both poetry and prose. With themes ranging from the beauty of the natural world to reflections on life and humanity, this book offers a profound and captivating exploration of Mistral's literary genius.

The Forest Of The Minuscule

Awarded-winning Chilean illustrator presents a free and handmade inquiry into the interconnected life of the big and small in a forest, followed by an extensive review of the world of insects, a parable about the human within nature, and ending with further curiosities about bugs. Three or four books in a single volume that combine insight, fun and humour with an endless zest for looking and thinking.

This free, daring and appealing book for readers of all ages, emphasises the value of each individual within nature, regardless of size.

SAPOSCAT

An Alphabet Revolt

One day, the letters got bored of forming the same old words: they no longer meant anything, they were poorly spoken and even worse read. Each one went off with its own group and started making nothing but incomprehensible sounds. Then the silent H convinced them that they can only say something together.

A funny and thoughtful tale for early readers, about the value of language and the common sense. Illustrated by artist Antonia Daiber with collages, watercolors, and paintings

The Great Spirit

A young person feels consumed by every-day routine, so he decides to embark on a great trip: he arrives at a tributary of the Amazon from which he plans to enter the unknown, where a shaman lives alongside his village. There he will have a deep inner-body experience that will lead to him discovering new ways of viewing the world, the unknown, others and himself.

Illustrated by Tomás Olivos

ISBN: 978-956-9866-11-1

Age: 7 and up

17,5 x 25 cm | 84 pages | Hardcover

Antonella

In a city filled with tall buildings and windows that tell stories, lives Antonella, a mysterious figure who could be a magician or perhaps a good witch. Her laughter and joy transform the everyday, filling routine with colors and teaching everyone to see life from a happier and different perspective.

Directed to children from the age of 5, this tale tackles themes such as migration, empathy, adult-centrism, and respect for diversity, all from the viewpoint of a migrant child. Antonella's story serves as a bridge between distant worlds, showing how play and kindness can create an inclusive environment for all.

UNA CASA DE CARTÓN

The Lady With Flowers

"The Lady of Flowers" follows a young girl's curiosity about an enigmatic old lady who strolls with flowers in a supermarket cart. The elderly woman cultivates a beautiful garden in her home. A story of a garden as a metaphor for the inner world. The plot explores prejudices, empathy, and the profound beauty of the connection with nature.

Love

"Love" by Evangelina Prieto is a literary gem delving into the complexities of emotions, especially challenging for children to grasp. Prieto's debut book takes readers on a nostalgic journey through childhood, using visual and textual poetry to explore various forms of love through metaphors. The poetry and illustrations create an atmosphere akin to whispers resonating with the ineffable sensations of love, painting the soul with colors and playing melodies only the heart can hear. This book is a sensory gift, encouraging children to contemplate their emotions, finding solace in its pages when words fail.

26 x 26 cm | 48 pp. | Hardcover | 2023

My World Home

'My World Home' is a poetic picture book that invites children to imagine the world as a series of homes we inhabit: Earth, Sky, Water, Forest, Body, Love, Creativity, and more. Each "home" reflects a deep, sensory, and emotional connection with the environment, fostering empathy, care, and respect for nature. Narrated by eleven children, it offers a lyrical and visual journey that reminds us we all share one home: the planet.

Somewhere At the Same Time

'Somewhere At the Same Time' is a poetic picture book that invites children to pause and observe the world as a web of simultaneous events. Told in a gentle, curious voice, it evokes essential life moments—"Rain ends," "An egg hatches," "Some die... life goes on." With hand-cut collage illustrations and a contemplative rhythm, it offers a lyrical, open-ended reading experience for early childhood.
